

**RAISE PMS**

Portfolio Monitoring System

Delivering an intuitive and dynamic analytics platform tailored for private market investors.

Real-Time Insights at Your Fingertips

Unify data from fund commitments, secondaries, direct investments, co-investments, and more to transform scattered PDFs, Excel files, databases, and other sources into a comprehensive view of private capital performance and exposure.

RAISE PMS features customizable dashboards, alerts, and benchmarking tools, enabling you to

track performance, evaluate investment positions, and calculate KPIs. With an intuitive cloud-based interface, RAISE PMS simplifies data collection and streamlines the process of monitoring fund performance, making portfolio management more efficient than ever.

Why Choose RAISE PMS?

Enhanced Collaboration

The platform enables LPs to analyze their total Private Markets portfolio: fund investments, co-investments, and direct investments, in one place.

Streamlined Data Collection

Automates the data collection process and allows investors to drill down data into asset-level details.

Customizable Reporting

Get real-time insights and customize dashboard views to easily extract actionable insights from your data, so that you can spot trends and make decisions more efficiently and effectively.

Integrated Solution

Integrate RAISE Connect (Investor Portal) and RAISE FAS (Fund Accounting) capabilities with your private equity portfolio monitoring to enhance investment decisions.
